TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts, I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
By using GILLARD'S SHEEP DIP the outlay will be repaid One Hundred-fold by the Improved Condition of the Sheep, and the increased Weight and Quality of the Wool All Sheep owners should therefore try the experiment, if only on a small Flock.
NOTE—A sample drum will be supplied gratis to any Estanciero who is willing to give the Dip a fair trial and report on same

THE CABILDO QUESTION.

It is very remarkable how smoothly political events flow in their channel since the capitalization of this city; spite of all the forebodings of opposing politicians, no difficulty has arisen between the Provincial and National Governments that patriotism and good sense have not speedily overcome; and when we look back on that period identified with the 'patria chica' and 'patria grande' animosities, we are almost constrained to think that a new generation has taken charge of public affairs, and that twelve short months have proved in the political history of the Plate more than thirty years.

The notes which we give at foot respecting the occupation of the Cabildo are too important to be left untranslated. The Cabildo, as we all know, is one of the most important of our city properties: it has lately been repaired and remodelled at a very great expense to the Provincial Government, and when these repairs were begun the object in view was not only to adorn our public square, and to rid the city of that nest of criminals which for the last 25 years occupied the lower portion of the edifice, but also to concentrate the various courts held in different parts of the town, and provide the judges with good and spacious courtrooms, and to save the Provincial Exchequer from the very heavy outlay of rents which, under the present system of scattered judicature, amounted to a very serious item. When the repairs of the Cabildo were begun it never entered into the imagination of any that the day was not far off when the Cabildo would cease to be Provincial property. But events which none anticipated have come to pass, and the admirable simplicity and candour with which Governor Rocha and Minister D'Amico reply to the Minister of the Interior's note will win from an impartial public its fullest approbation.

B. Ayres, Aug. 9th, 1880.

To the Provincial Minister of Government.

The decree of Y. E's. Government, dated 6th inst, referring to the better arrangement of the old Cabildo building, to enable the Provincial Law Courts to remain there, is calculated to give rise to doubts as to the perfect understanding, in reference to the application of the Capital Act to the public buildings handed over to the Nation, which exists between the National Government and yours.

Without attaching too much importance to this affair, and to put a stop to erroneous impressions, the Most Excellent President of the Republic has desired me to suggest to you the advisableness of explaining the decree, as, while it apparently contains provisions of a permanent character and direct jurisdiction, it is natural to suppose that these provisions are purely temporary, until the National Government requires or occupies the building.

I salute Y. E. etc.

A. del Viso.

B. Ayres, Aug. 16th.

To Dr A. del Viso,
Minister of the Interior,

I hasten to answer Y. E's. note of the 9th inst, in which you ask for explanations as to the decree in reference to the Provincial Law Courts, with the highly laudable view of correcting false impressions as to the understanding between the National and Provincial Governments as to the application of the Capital Act.

I thank Y.E., and through you the President of the Republic, for the confidence Y.E.'s note reveals that my Government will never do anything to hinder the full carrying out of the Capital Act. The reasons for this Government acting as it did will be quite apparent to Y.E. The city of Buenos Aires is in one of the Judicial Departments of the Province, and the partidos round it are affiliated to it. Congress, when passing the Capital Act, understood, doubtless, that it was impossible to deprive the Courts of jurisdiction in the territory ceded by the province, without mature consideration, and laid down in Article 7 of the Act, that 'until Congress shall have organised the administration of Justice in the Capital, the Provincial Tribunals shall continue to administer it under its existing regimen.'

It is under this provision that the Provincial Courts continue to administer Justice in the Capital, without the slightest gain to the Province, but rather increased work and anxiety, which have been accepted in obedience to a Law to which the Honorable Legislature also gave its sanction: Thus: Judges have been appointed, resignations accepted, vacancies filled up and direct relations maintained with the Law Courts, even in cases belonging exclusively to the city; and still more, it has been necessary to maintain the old practice of confining criminals under Provincial jurisdiction in the National jails. The locale in which the Courts sit also comes under Provincial jurisdiction, by virtue of the provision referred to.

This is the first basis on which rests the decree orderiag the concentration in the Cabildo of all the Law Courts which, under the National Law, are still bound by the authority and laws of the Province. When Congress passes a Law for the administration of Justice in the Capital, and relieves the Province from this duty, the latter will obey and at once cease to administer Justice in the Capital of the Republic.

When Congress declared Buenos Aires the Capital of the Republic it had no desire to injure the public service by forcing the three powers which constitute the Prov. Government to remove to an inconvenient place, without any preparation, and where they could not act efficiently; to this end Art. 6 was passed. It says "The Provincial Government can continue to act, without jurisdiction, in the city of Buenos Aires, and to occupy whatever buildings may be necessary, until it is removed under its own laws, to some other quarter;" and by virtue of this legal enactment the three Provincial Powers continue in the city, in spite of the natural inconvenience caused to them by their having no jurisdiction.

Up to the present, it gives me great satisfaction to declare, the National Government has done everything in its power to lessen this inconvenience, giving every facility to the Provincial Courts; and the Provincial Powers would not have remained in the Capital but with the undoubted right the Act of Congress gives them so to do. For a long time past the Cabildo has been exclusively occupied by the Courts of Justice; first by all the Tribunals, 'escribanias' and Criminal prisons; then with the increase of population and the number of courts some of the latter were removed to other quarters. When the Penitentiary was built the Criminal Prison was evacuated, and the new 'Casa de Justicia' of the Province was commenced. The Province has spent on this building $2,998,700 m|c, and has yet to spend $231,300.

This great expeuse was gone to in order to place all the Courts in one locale and thus save large sums spent in rent. The concentration of the Registry Offices was necessary, in order that they might be near the highest tribunal that superintends the administration of Justice.

The duration of the step taken is not a matter of uncertainty. In the case of the Law Courts it must remain in force until the new Capital of the Province is built, as, even after Congress passes a Law for the administration of Justice in the Capital, the provincial tribunals of

the department now united to the Capital will always remain, as even when it is separated from the Capital it will always be the most important department of the province, comprising as it will Flores, Moron, Merlo, Moreno, [General Rodriguez, Lujan, San Martin, Belgrano, San Isidro, San Fernando, Las Conchas, Zarate, Exaltacion de la Cruz, Pilar, Barracas al Sud, Quilmes, Lomas de Zamora, Ensenada, Almirante Brown, etc. etc.

As for the building, built with Provincial money, its disposal will depend on whatever pecuniary arrangements Y.E. may be inclined to enter into.

I trust that the foregoing explanations will remove all false impressions, and that time and events will prove the sincerity of my efforts in favour of our institutions and Argentine nationality.

I salute Y.E, with deep Respect,

GERMAN IMMIGRATION.

Whilst persuing one of last year's numbers of the well-known German publication *Geographische Nachrichten*, we remarked that this magazine comprised a series of articles on immigration to the South of Brazil and to the Argentine Republic. Seldom have such articles been written on a whole with a more impartial pen. Amongst other important articles, one was specially devoted to advice and warnings, as regards the immigration into Rio Grande, where there is at present settled quite a German province. Who would credit the fact that there are 60,000 Germans in Rio Grande do Sul, in general all thriving and prosperous? These men, years ago, settled in the virgin forest and through dint of hard work have arrived at their present prosperous condition. Rio Grande, Santa Catharina, and Parana, according to the writer of the article, are the only Brazilian provinces where Germans can settle with advantage; more to the North the climate is too hot and the productions differ greatly from those with which a German in general is well acquainted. Many Italians and Tyrolese, although accustomed to warmer climates than the Germans, had to leave the Northern Brazilian provinces owing to excessive heat and their want of experience in the cultivation of coffee, sugar and cotton.

It is laid down as an axiom that none should emigrate unless there are no possible means of making a profitable living at home; a very salutary warning, as cases may occur, as happened with the Frenchman Wagner who, although at ease in Algiers, entertained hopes too bright of bettering his condition in this Republic. A man who emigrates must leave prepared for very hard work, and with the condition that in the country where he intends settling he must undergo hardships and forego commodities for some time to which he may have been accustomed in his fatherland. This is the secret why men with small capital and humble aspirations have so often achieved so much more on the highroad to the future in this country than those who land in the Paseo Julio and lodge in the fashionable La Paix with money in their pockets, but total inexperience to handle same in a country where everything is new to them and nearly the antithesis to home experiences.

The Germans who settled in Rio Grande, for the most part, owe their success to the impecunious condition in which they landed at Porto Alegre; and this success cannot be too much praised when one considers that their settlements were in virgin forest, where the hand of man had to do everything; very unlike our smiling pampas, which welcome the immigrant. Agriculture in the Rio Grande forests is a very different task to the production of cereals in the plains of the Province of Buenos Aires or of Santa Fe. It is, therefore, not to be wondered at when the *Nachrichten* warns all dainty individuals from settling in parts where life is an ordeal of heavy labor; furthermore, unmarried men are warned away, unless they wish to be employed as servants. The latter circumstance is easily explained by the fact, taught by experience, that you cannot expect a man to settle in a virgin forest quite alone, and female work and companionship is necessary. When several young men unite in such a settlement, discord generally ruins them all. As can be seen, Rio Grande lacks many advantages offered by the Argentine Republic, but let it not be thought for one moment that the Rio Grande German colonies owe their prosperity to any Government help and influence. So far from such being the case, the emigrant is warned of accepting any free passages and advances offered by the Government: he is told that they portend his ruin, as he is at the mercy of the Government and his destination is an Imperial colony, where bundled with French, Italian, Polish and Russian colonists he must rough life in strange surroundings; money, house and improvements are advanced to him, besides the land, but the debt is a burden which stifles all his attempts and all his progress. The experience afforded by our Santa Fe colonies does not corroborate this malefic influence of advances from the Government, but it cannot be denied that in many cases it fosters an artificial prosperity and idleness. But it appears that the Imperial colonies in Rio Grande labour under many defects in spite of the many advantages offered to the emigrants.

The roads are abominable and the management of the colonies by inexperienced and young Brazilians has had bad results. But the chief drawback of same to the German emigrant consists in their heterogeneous population; nationalities clash, customs are different and tradition and language do not engender that sympathy and cohesion so desirable in first settlements. Two-thirds of the population of the Imperial colonies consists of Italians, who are everything but akin to Germans, not to mention Frenchmen, Greeks and Poles. The writer in the pamphlet asserts that no German can thrive in the Imperial colonies.

The provincial colonies of the Rio Grande Government stand in remarkable contrast to the imperial ones; the advances are limited to passage money and land grants, and the colonies are most successful. The lands are good and the population is mainly German. There are only three provincial colonies, and at the most 300 families can now find accommodation in same. The private colonies stand on the same footing as the Provincial ones; passage money and price of land must be refunded in a term of years; the land-grants comprise 48 hectares, with prices varying from 200 to 3000 milreis; the first payment is effected after the third year; interest 6 per cent.

The German who settles in the provincial and private colonies can reckon on help from his countrymen. On every side he hears the language of his country; its customs are perpetuated and a new Germany is springing up. Naturally men with a good education and accustomed to refined living should never think of settling in this Germanised Rio Grande, since, as the *Nachrichten* says, they will meet with very severe deceptions. The hardy tiller of the soil and the woodcutter are the men who alone can entertain hopes of undoubted success. Perseverance and industry will always crown the efforts of the latter class.

AFFAIRS IN BANDA ORIENTAL.

(Telegram to *Nacional*)

Montevideo, Aug 23d.

Rumours:—Half Battalion of 1st Cazadores declared for the revolution.

Squadron of 3rd Cavalry mutinied.

Steamer Jupiter taken up by Government and armed.

Troops going to camp to-day.

Commander Villar beaten by rebels at Arapey.

Police at Durazno routed by 50 Latorristas.

Troops in garrison here and Serenos ready in barracks.

New battalion of Cazadores to be created to-morrow.

Official paper says all is over with rout of Simon Martinez and his rebels.

Other papers deny this.

Stated positively that Latorre has left Pelotas with 80 men for Corrientes.

Rio Grande papers say that when order was sent to Latorre to go to Port Alegre, he and his friends had already disappeared.

Rio Grande authorities suspected.

Courtin is in Monte Caseros, which is supposed to be headquarters of rebels.

Rebels have appeared on the Queguay.

Another alarming sign is the news in the *Jornal do Commercio*, which says the Latorristas are assembling in Tacuarembo.

EDITOR'S TABLE.

The R.M.S. Trent arrived at Montevideo yesterday, and her mails will be up this morning. She brings the Iberia's dates, Lisbon, 3rd inst. Telegrams from Madrid say that the French soldiers sacked and pillaged Sfax, including all the Consulates, the Spanish appearing particularly obnoxious to them, as they tore down the flag. Telegrams from the Cape say that the Convention with the Boers was signed on the 30th ult. Great preparations in Moscow for coronation of Alexander III.

Telegrams from Bahia Blanca yesterday report all quiet down there and no Indians about.

Yesterday, at the meeting of the Municipality, the attention of the Board was called to the truly scandalous state of the Chacarita Cemetery. After some discussion, it was resolved to put a nandubay and wire fence round the Cemetery for the present, but a general opinion was expressed that the place will never suit as a permanent cemetery for this great city.

There will be a cricket match worth seeing to-morrow at Palermo between the officers of H.M.S. Garnet and Dwarf and the Buenos Aires Cricket Club. Wickets will be pitched at 11 o'clock.

The French mail steamer Gironde sails this afternoon. Mails close at 1 o'clock.

The *Prensa* says there is a spirit of opposition to the treaty with Chile raising its head in the Chamber of Deputies. We're sorry to hear it, but, in spite of some of the Deputies on both sides of the Andes, we have still faith in the Treaty, Nature, and the American Minister.

Parties who arrived yesterday from Montevideo say that things look washy enough down there, although as yet the people are doing more to work themselves into a fright than events justify. The army is not so Latorristically inclined as represented, having all it wants under the existing regime. The telegrams say that the row is far more serious than supposed, that the Government forces have been whipped at Arapey, that the police have been routed near Durazno, that Colonel Courtin is in the field and Latorre will be there next week, &c. The Government is evidently alarmed and is trying to buy up or hire some of the river steamers for transport and fighting purposes.

Our pen slipped yesterday when, in referring to Mr Garrahan's housewarming ball on Saturday next, we said it would be given at Mr Martin's new residence, instead of Mr G's. The real state of the case is that Mr Garrahan gives the ball to Mr Martin, and the latter (no mistake this time) gives it in turn to all the pretty girls and well-favoured bachelors of his acquaintance. Mr. M. is deservedly such a prodigious favourite with the former (pretty girls) that the latter (bachelors) can hardly hope to retain him in their ranks much longer.

The Rio Grande papers say that the Emperor of Brazil will not come to the Continental Exhibition. We trust they are misinformed. The people of this city will be sorely disappointed if the Emperor does not come. In no country is His Majesty more highly esteemed than here.

The telegram from New York, published yesterday, to the effect that President Garfield is holding his own, was an agreeable surprise, and hope of a favourable issue has again sprung up.

The *Reforma* of Asuncion admits the sad fact that Paraguay is insolvent and can never hope to pay its debts, those which it has recognised amounting to 23,426,293 hard dollars, whilst there are several millions more which must be recognised sooner or later. The Budget of receipts for next year is only 285,000 pats., and the import and export trade is only one million pats. in all.

There will be races and other gay doings at Navarro on the 25th and 26th inst.

The Villarino sailed yesterday for Chubut with Mr. Lewis Jones and 90 Welsh immigrants. Governor Barros also sailed for Patagones.

Mr Crabtree, the energetic Manager of the Northern Railway, will leave shortly on a trip to Europe.

Some clever thief managed to steal from the Cafe Colon on Sunday night 6 billiard balls and $2,000 m/c. He will have found the billiard balls a rather inconvertible currency.

The *Revista Medica* continues to rub up the Municipality on the subject of the hot weather being at hand and the neglected state of the city. Our colleague considers that the deposit of putrid matter from the Atmospheric Carts, near Palermo, is one of the most serious dangers of the many public health has to contend with in this city. On a Sunday or holiday, when a South East wind blows, it is a sight to see the effect on the carriages full of fashionables of the stench which 'comes betwixt the wind and their nobility' from the place in question.

The *Industrial* declares that the intrinsic value of Cedulas is between 70 and 80, and that of National Banks 90, and that before the present lunatic speculation is over 'somebody will be hurt.' Our colleague says that all the 'respectable' shareholders in the National Banks have sold out. Complimentary for those who still hold shares.

The old and repulsive system of dog slaughter is to begin in a day or two for those sad dogs who have not paid their 'patentes,' and, we fear, their name is legion.

Mr. Comelli, agent for M. Maurice Grau's French Opera Company, favoured us with a call yesterday. The company will arrive here from Montevideo on the 29th, and will make their 'debut' on the 1st or 2nd of September. If the money test is worth anything, this Grau company must be a stunning one. The net profits to the proprietors in Montevideo have been over 25,000 patacons, and we believe they were still higher in Rio.

The life-boats which the National Government is thinking of buying were tried at San Fernando on Sunday and gave great satisfaction.

The greatest collection of novels we have ever seen in any quarter of the globe since the day on which we began our first one (Henrietta Temple) is that which Mr William Mackern has gathered in his store in Calle Florida. Such piles, and such low prices! The Seaside and Franklin Square novels fairly fill the shop, and what most astonishes us is that most of them have been bought up for the camp! We remember the time when an English novel in the camp was a curiosity and worth its weight in gold. Thanks to the enterprize of Mr William Mackern, Camp and Town can now read novels that thrill the nerves and curdle the blood for a few miserable paper dollars. Verily times are changed when the camp has become a large consumer of novels.

The *Prensa* of Belgrano offers to bet half a million of patacons that the new capital of the province will be somewhere between Belgrano, Olivos and Chacarita, and another round million patacons that, if private interests are allowed to have their full influence, as against those of the public, Tolosa will be the spot. It is an awful thing to see an editor risking such sums.

'Mille remerciments' to our colleague *L'Union Francaise* for telling us how many 'abogados' there are in this favoured country. We could not have died happy without the information. From 1812 to 1872, 331 barristers were turned out in Buenos Aires; from 1872 to 1876, 337; from 1876 to 1881, 300, or 1000 in all in 70 years. Of these, 500 are either gone to their reward (?, or are on the Bench, leaving 500, of whom 400 are briefless. This is not so bad. We confess to having always entertained the fear that there were at least 50,000 barristers in the Republic, but our colleague's figures are an immense relief.

We beg to thank Captain Cabral for sending us a copy of his excellent work. 'Diccionario Naval Argentino,' which contains over 5000 of the words of command etc. used in the British, North American and Spanish navies. A useful work for the Escuela Naval.

The city barbers will celebrate their annual fete to-morrow with a grand champagne 'fete shampootre' at Las Conchas. Nobody will be able to get shaved in town 'mañana' for love or money.

Signor Calvary, Argentine Consul in Genoa, is now out here. We are glad to hear that his opinion is that European emigration to this country will shortly increase considerably.

The Minister of War has taken a most prudent step, viz; named Commissioners to decide on establishing a permanent Lazaretto. We hope they will look sharp about it, as the hot weather is not far off and the city is painfully filthy.

We salute our new colleague, the *Imparcial* of Moron, a well got-up sheet, with beautifully clear type, good paper, and all the news of the neighbourhood.

The Chaco wood-cutters are moving to induce the National Government to stick to wooden sleepers for the railway extensions instead of adopting iron ones, as it threatens to do. Why dont the contractors keep up the supply of wooden sleepers instead of going fast asleep over their work? Blood and iron cannot stand their dilatoriness any longer.

The merchants in Mendoza have kicked up their heels against the new inconvertible shinplasters up there and have signed a round robbin not to receive them or touch them with a tongs. There has been a serious robbery there, of Bank of France notes, 20 of 1,000 francs each, and we give the numbers, lest any of our 'cambista' subscribers should get a 'stick' that might floor them:—

New York 22nd (evening.)

The medical bulletin of this evening is less favorable than yesterday's. The improvement has relapsed, and the state of the President has assumed the same grave character as before.

Still it can not be said that all hopes should be given up to save the President.

VALUE OF PAPER-MONEY.

Until the evening of 24th Aug. the rate will be—

EMILIO CIVIT.

ON 'CHANGE.

August 23d.

Patacons	25.50
Cedulas A	99⅝
National Bank Shares..	118½
Old Gas Co. Shares	2200

There was very little business done in gold to-day; prices ruled a shade firmer than yesterday, although the Government broker sold gold, the proceeds of some Government exchange passed yesterday 3 days sight at 49. Gold opened cash at 25.50, rose to 25.55, and closed at 25.50; cash sales 145,000. For end of month 220,000 sold at 25.50-55, and on long dates only 80,000 sold at 25.30-35-40, total days sale 445,800.

Cedulas ruled flat and dropped, owing to the sale of some 70,000 fresh from the bank, but the new stock was all taken up at 99⅝, and we heard on 'Change that there are now two agencies in this market, one for Montevideo, and the other for London, that take up the new Cedulas issued by the bank before they are offered on the Bolsa; the stock sold this morning must have escaped those agencies. The sales to-day reached 114,900, of which 79,000 were for cash.

National Bank Shares ruled somewhat quieter to-day, and although some very significant parties sold out their stock this morning the market held its own tolerably. All who are out of this most speculative stock stand back watching a fall when they can go in and buy, but the fall they anticipate has not come, and the greater holder who boasted that as he held 12,000 shares he could put the market at 130 or at 90 is now out of the market and erred in his estimate of his own abilities a by no means uncommon error. The stock ruled slightly weaker than yesterday, although a new buyer came to the ring, and it is impossible to judge the value of the shares until the tremendous business for the month's liquidation is cleared off. For cash only 120 shares sold, opening at 119 and closing at 118½. For end of month 3,490 shares, opening at 119 and closing at 118¾. For September 3,350 shares, opening at 117, dropping to 116½ and closing at 116. Total day's sales, 6,960 shares. They say on 'Change that the total amount of shares to be liquidated at the end of the month will reach one hundred thousand, which perhaps only 30,000 will be 'efective'. Yet this is a heavy figure enough for this market.

Gas Shares were firmer to day, only 60 shares sold at 2,200.

National Proveeduria Bills offering in the market, and some of them done at 8 o/o. National Bonds and Nat. Treasury Bonds offering, but we have not heard if the lots were sold.

The Euclid entered Montevideo last night and the Trent came in to-day, she comes up to-night.

Telegrams delivered to-day in London at 3 o'clock, were received here at ½ past 1 o'clock and before the bell rang.

Mr Thomas Taylor, of Concordia, and Chevalier Oldham, of Montevideo, were welcomed on 'Change, also Mr Schleeper of Rosario.

The sales at the ring were—
For cash 145,892 25.50-55
For August 31st 220,000 25.50-55
For Sept. 30th 30,000 25.35-40
For Oct. 31st 10,000 25.35
For Dec. 31st 40,000 25.30-40
Sales, 445,892.

Cedulas—
For cash A 79,900 99⅝
For Aug. 31st A 5,000 100
For Sept. 30th A 20,000 99⅝
For Nov. 30th A 10,000 99⅝
Sales, 124,900.

Nat. Bank Shares—
For cash 120 shares 119-118½
For Aug. 31st 3,490 shares 119-118¾-½
For Sept. 30th 3,350 shares 117-116¾-116⅝ to 116½-116

Sales, 6,960.

Old Gas Co. Shares—
For cash 60 shares at $2,200

At afterhours there was not much animation; gold ruled about the same, 25.50 buyers and 25.55 sellers. Nat. Bank Shares at 119 for end of month and 117 for September. Cedulas, one small lot, 2,000 bought at par. Gas Shares nothing done. Treasury Bonds offered freely at 120, but no buyers over 118, and National Bonds off red at 93.

Telegrams from Rio give exchange there at 22¾. Exchange here on Rio offered at 10:550, and on Montevideo 10:600, no takers.

One lot of hides sold to-day at 56 rls, and about 25,000 ar. wool sold this morning in deposit at reserved price bought by Belgian and French buyers; wool at last seems to be moving off.

The Porteño from Havre has brought a splendid cargo. Mr Christophersen has already engaged for her 1500 bales, 5000 salt hides, and 8000 dry hides.

Exchange was done at 5.22 Paris and Antwerp which is over the Bank rate, but a leading German house refused to draw for a large amount to-day at 5.19, bills on London passed at 49¾.

To-morrow Messrs Bulrich sell 10 splendid rams, imported by Mr Brunkhorst, and the day after, 15 fine rams from Lozano's famed estancia, Las Horas.

The mails from West Coast bring the following:—

"It is reported that the Government has received a telegram announcing the arrival at Buenos Aires of a representative of Bolivia, charged with the duty of soliciting the mediation of the Argentine Republic in favor of peace. It is also stated that Brazil and Uruguay have consented to act in concert with the Argentine Republic.

"The Minister of Finance made an important statement in the Senate on the 27th, to the effect that the Government had resolved to put an end to the undefined state of affairs in Peru, either by means of a treaty with a stable Government, or by energetic measures of warfare."

New contracts for the new wool are already spoken of, we hear Mr Cano has received an offer of 80, but declined.

The arrangement of the 20 million loan by the Provincial Government, we hear, will to-morrow be submitted to the Provincial Bank board.

The Provincial Bank discounted yesterday 3 millions currency, and all the private banks are discounting at 7 and 8, both gold and paper.

Many parties on 'Change stated that yesterday Latorre passed through this city; we give the rumour for what it is worth. Affairs in Montevideo are, however, by no means as unsettled us supposed, and the Government is well able to hold its own.

Quintas in Flores are fast being taken by our leading merchants, Mr Mallmann has taken on lease the beautiful quinta of Mr Soler, in Flores, and we hear of many others looking for quintas out there.

As yet we hear the premises for the new English Bank have not been taken; there was talk on 'Change of Mr Elortondo's house in Calle Piedad, where the Telegraph Office is, being taken for the purpose; if so history repeats itself, as it was in that very house the London & River Plate Bank cradle was first rocked.

Several large lots of sheep offering in the market, but nothing as yet sold; sheep looking down.

The following sales reported at the Plaza Once this morning:—
75 waggons with produce arrived.
Produce in general flat.
The sales were—
No wool sales.
44o doz. sheepskins at 23, 24 rls.
Descchos at 17 rls.
Corderos at 20 rls.
500 doz. peladas at $110
685 doz. corderitos at $12-13½
474 cow hides at 171, 170
Becerros at 160
85 ar. hair at 135-138
Tallow, 10 cases at 35
Pisado at 26
Wheat, 190 fan., Costa, at 189, 196
Wheat, 280 fan., Salado, at 184, 171
Maize, 540 fanegas, morocho and yellow, in grain, at 47-50
Hay, 32 bales good at 600, 580
The following important sales were concluded yesterday.
Arenales 178, 15 metres front by 65 deep for 150,000 m/c.
House No 795 Santa Fe, with 270 square metres of ground for 65,000 m/c.
House No. 165, Pozos, 8½ metres front by 26½ deep for 77,000.
Houses No 205 to 213 Peru, 19 45/100 metres front by 37½ deep for 1,530,000 m/c
A square of land in Quilmes for 15,000.
A property in Barracas al Sud, 454½ metres front by 866 metres deep for 130,000 m/c.
Camps in the Province of Santa Fe—
1½ league of camp for 233,750 m/c.
1 do do 145,000 do
8 do do 1,500,000 do
3 do do 344,280 do
1½ do do 227,500 do
The sale of the Pineyro quinta on the Gauna Road, 16 squares of land, is important, and shows how that description of property is improving; it was valued at $475,800 and realised 850,000.

Another important business much spoken of is a large sale of National Treasury Bonds at 123; the seller, an estanciero, bought the stock in February at 76½; the lot amounts to 120,000 pats, and the buyer of the stock sold out his lot of Nat. Bank Shares, which he bought 1½ year ago, at 60½, and from the profits pays for the Treasury Bills. This is almost as good a business as a friend last year who, after the war, telegraphed to London to purchase £10,000 worth of Central Argentine Railway Shares and raise the money in London to carry the stock which the bankers did, and which gives to our subscriber now such magnificent profits.

Another small lot Italian Bank Shares sold at 30 prem. gold, and 200,000 pats taken up to-day on Nat. Bank Shares for 90 days at 9 per cent; 90 days seems to us a long time for a loan of this kind.

Offers made to the Minister of 500 pats per annum rent for the Isle of Hens in the Uruguay; a very good rent for the place.

The following is the latest from the London markets:—

"Although business was still quiet a better tone was observed on the Stock Exchange. The principal movements were in the English railway market, which for a long time past has been in a state bordering on stagnation. A stimulus was imported to the demand by the announcement that an American order for 30,000 tons of steel rails had been placed in this country, 20,000 tons being secured by Sheffield, and the remainder by Cumberland. This circumstance seemed to suggest an improvement in the hardware trades, and in consequence the, so-called 'iron lines' became stronger. The subsequent notification by the Great Eastern Co. of the result of the past half-year's working assisted in strengthening quotations, and the market ultimately finished with a strong appearance. As was the case with the corresponding period last year, the Great Eastern pay no dividend on the ordinary stock, but they carry a large balance forward, namely, £28,140 against £21,478 stg. This year's balance is equivalent to a dividend at the rate of ½ o/o, with a surplus of about £5,000. It would have been something novel for the Great Eastern to have paid a dividend on the ordinary stock for the first half of the year, but apparently the Directors deemed it better to carry the whole amount forward rather than make a small distribution. The gain in traffic for the half year was about £16,000, but about £7,000 additional preference charges had to be met, besides the expenses incurred during January through the severe weather. A saving in expenditure has evidently been effected by the opening of the goods station at Bishopsgate. The result is certainly satisfactory, and has caused a more hopeful view to be entertained of the remaining announcements. A large business has been done in London and Brighton A stock, which shows a substantial improvement. The passenger stocks generally were strong, on the expectation of good traffic from the fine weather. The receipts on the Southern lines were up to estimates, those of the London and Brighton showing an increase of £1,438, and the South-Eastern an increase of £1,765. Canadian and American railways were quiet, but steadier. Foreign bonds were dull, the absence of business frequently producing weakness.

"Consols remain without change at 101½ to 101⅝ for money, and 101⅝ to 101½ for the account. Reduced and New Three per Cents closed at 101 to 101¼; India Four per Cents, 106½ to 107; India Four per Cent Rupee Paper, 86½ to 87; India Four and a Half per Cent Rupee Paper, 92 3/16 to 92 5/16; India Bonds, 10s to 15s prem.; Exchequer Bills, March, 11s to 16s prem.; ditto, June, 8s to 13s prem.; Bank Stock, 289 to 291; Metropolitan Board of Works 3½ o/o stock, 108 to 108¼; and Canada Government Intercolonial Railway 4 per cent guaranteed bonds, 114 to 116."

The following interesting letter from the South has been favored us:—

Bahia Blanca, Aug. 6th, 1881

Of all the God-forgotten places on this earth Bahia Blanca must take the first rank. It is like a town in Ireland called Back of Beyond. No commerce, no trade, no nothing; the people appear to live on taking 'mate'. The trade with the Indians is all gone, and the little done is simply of a camp town nature. San Nicolas is three times in advance of it; however the camps outside are magnificent, but the inhabitants want a little Yankee go-ahead. The port might be made one of the finest in the world, but a little money and much energy is much required. I have been surveying for the last month and expect to be so engaged for some months to come. This is the natural shipping port of all the territory originally occupied by the grand Indian tribes of Namuncura, Catriel and Pincen as well as the port of embarkation for the products of the Salinas Grandes, a wealth now little thought of, but of untold magnitude. I have been but once to the town, and think little about it. Dull in the extreme, but might be made a rattling place; plenty of good water from the Napausta Grande, but no energy in the inhabitants. If you intend making a visit here I would advise you to come by coach from Azul, a rough journey, but you will see the country; landing from steamer is a fearful job. The town lying about 2 leagues off and in bad weather nearly inaccessible; walking is bad, and coaches are dear, $100 per head, and that as a favor. Horses scarce. Good hotel, but everything very dear. I get on well with my associates and am in all and all quite independent. It is very cold and the weather has been so rough I have not been out for two days. Tell me all of what is going on in Buenos Aires, and if possible send me some stray English newspapers. In all, this is rather a Robinson Crusoe life, but with all has its attractions. Sometimes an odd cocktail with the Dr., but as a rule nothing more than the usual table wine. Do not purchase camps in this neighborhood without seeing them; the generality are certainly the finest in the world. Patagones Harris is here driving a flour mill on his own account, and if he is steady and plodding must make money, although he is now but on a small scale. Waterpower and no great costs to encounter.

Yours,

SAN BLAS.

THE UNITED STATES.

Philadelphia, July 18th

Cyclones visited New Ulm and West Newton, Minnesota, on Friday afternoon, destroying over 100 buildings, killing 14 persons, and injuring 30 others, and inflicting damage to the extent of $500,000. An additional loss of life is believed also to have been inflicted in neighbouring towns, but details are lacking. The fiercest storm was at New Ulm, moving from the north towards the south. Black clouds gathered at 4.30, with terrific thunder and lightning and heavy rains. Then, after a short lull, the cyclone came, almost destroying the town and disappearing as quickly as it came. All was over in 12 minutes. The town is mainly built of wood. Several buildings were struck by lightning, while all which were not totally swept away were unroofed. Brick equally with wooden houses were destroyed. The storm travelled along a path one mile wide and 40 miles long, destroying everything until its force was spent.

The President steadily improves. His physicians officially say that he progresses steadily towards convalescence. He is permitted to select his food and he eats heartily of beef. He has been told that he may sit up within ten days. The doctors are discussing where he shall go, it being contemplated to take him for a short trip in Chesapeake Bay to salt water, on a Government vessel. The expectation is that the President will now mend rapidly.

The King of Portugal has sent a telegram congratulating the President on his recovery.

The Garfield Fund now reaches $148,000.

The Treasury Cattle Commission, which has just been appointed, has been instructed to meet in New York as soon as convenient to adopt regulations for securing freedom from pleuropneumonia among cattle exported from the U. States. This Commission, which consists of 3 practical cattle-raisers, is appointed under the authority of the law operative from July 1st. They will investigate all cattle disease, especially along the Canadian boundary and along the transportation routes from all parts of the United States to the points whence cattle are exported abroad, They will also execute the orders of the Treasury Department, the object being that cattle shipped abroad from the United States may be known and certified to be free from disease.

The New York Legislature took 2 ballots for Senator to-day, with the following results—Mr Lapham, 54; Mr Conkling 27; Mr Evarts, 1; and Mr Potter, Democrat, 34. Mr Lapham lacked 5 votes for election. Many members were absent, having paired off.

In crime as in other matters the Americans are fired by an ambition to do on the largest scale every thing to which they turn their hands. Sometimes their thirst for supremacy is displayed in the comparative novelty of the offence committed, as in kidnapping little boys for the sake of a ransom or snatching the bodies of deceased millionaires. In other instances, like those of two crimes reported to have been perpetrated within the last few days in different parts of the Union, the object appears to be less to establish a claim to originality than to excel rivals in enterprise and audacity. The robbery of the Chicago and Rock Island Pacific Railway train on Saturday evening is very like occurrences which we have heard of as happening in Mexico. A baker's dozen of conspirators who had entered the carriages at various stations rose in mutiny at a preconcerted signal. The conductor was shot dead, as was also a passenger who offered resistance; the engine driver was replaced by a desperado; and the thieves, stopping the train at a spot where horses were held ready to assist their escape, got off with booty from the mail bags estimated at about £3000. In the other case the scene presented a wide contrast, lying not in a wild and thinly inhabited country, but in a crowded thoroughfare of the city of New York. Two persons in the service of a large firm of brewers were carrying notes and specie to the bank, when in Lexington Avenue the vehicle in which they were travelling was run into by another innocent-looking conveyance of the same description. The collision was at first thought to be accidental and only blameable on the score of carelessness, but this misapprehension was speedily corrected when the occupants of the second carriage attacked the men in charge of the money, and after a desperate struggle succeeded in carrying off cheques and bank notes to the value of ten thousand dollars. The police of New York will, no doubt, be alive to the duty of inquiring whether resistance and pursuit appear to have been made in such circumstances with as much energy as the occasion might have been thought to demand. Whatever they might have been, they were unsuccessful, and the robbers, though repeatedly shot at, disappeared without, we are told, leaving any clue to their identity. Such events tend to maintain the claim of the United States to an undesirable distinction. We do not at all suppose that their rascality is altogether or mainly a native product. On the contrary, they incur, together with many of the advantages of inviting universal emigration, the disadvantage of affording a harbour to hardy and ingenious criminals from all parts of the world.

NORTH AFRICA.

Tunis, July 18th.

Yesterday, in broad daylight, a most daring razzia was made by about 800 mounted Arabs, belonging to the Slaas tribes, who inhabit the Kerouan district. They arrived close to Bardo, within six miles of Tunis and two miles of the French encampment at Manouba, and carried away about 2,000 camels belonging to the Bey. Some of the horsemen appeared last night under the walls of Tunis. It appears unaccountable how such a number of horsemen could have travelled from Kerouan to Tunis without being discovered. It is stated that they have been in the vicinity of Tunis for several days. The Arabs who carried away the camels are also said to have pillaged a farm belonging to an Italian; but the report is doubted, although a complaint has been officially made.

A telegram from Susa, dated Monday, says that the last time the French opened fire on Sfax the bombardment lasted continuously for 24 hours. At 6 o'clock in the morning the French landed under cover of a heavy fire. The Arabs resisted energetically for two hours, after which the French entered the town and had more fighting in the Arab suburb. Much damage has been done to the buildings by the bombardment. The European houses had been pillaged. It appears that the French lost many men; the exact number is not known. There is a report that Ali Ben Halifa has been killed, but I cannot ascertain if it is correct.

A telegram from Susa states that on Monday about 1,000 horsemen entered Kerouan and forcibly collected from the inhabitants the corn duties payable to the Bey. They afterwards went into the Enfida estate, and the men residing there as representatives of the Societe Marseillaise became alarmed and fled.

A telegram from Mehdia, dated Monday, states that the occupation of Sfax has had a demoralizing effect on the Arabs, large numbers of whom have fled with many wounded, but the number of deaths cannot yet be ascertained. At Mehdia all is quiet, and no further disturbance is apprehended along the coast, but it is stated that the tribes are organizing attacks inland.

THE SEQUEL TO AN ELOPEMENT.

The Manchester butcher, who in company with his servant, arrived at the Landing Stage about eleven o'clock on Saturday, with the intention of proceeding in the Minnesota to Boston, having left his wife and five children at Manchester, will probably by this have had time for reflection on the error of his ways. The pair of them were well dressed and came towards the stage with a sprightly step in evident ignorance of the fate in store for them. They had a large quantity of luggage with them, and while giving directions for its removal to the tender the butcher's wife, his own mother and sister, and a crowd of other people pounced upon him and hustled him about, and the police had considerable difficulty in preventing him from receiving serious personal injury. His wife scratched his face, but the servant set upon and rather roughly handled her. However, the wife and her mother-in-law got possession of all the luggage, and triumphantly marched off with it, while he was frantically rushing about the stage. Somehow or other about thirty fishwomen got wind of the occurrence, and their unexpected appearance on the scene added considerably to the excitement. In the meantime the servant, who was terrified at the aspect of affairs, made good her retreat, and escaped. P. C. Wiggins conducted the man to No. 4 Bridge, with the intention of securing a cab in which he also might make his retreat. As they were going up the bridge the women followed, having got possession of some paint brushes and red paint which were being used in giving a coat of paint to the bridge, and with these they daubed the deceiver all over. Just as he stepped into the cab he received a parting salute in the form of a dab of red paint in the mouth. The cab then drove off at a rapid rate, amidst the jeers and execrations of an excited crowd.

El Sr. Vivot compro en el año 1863 al Sr. Stegman una de sus mejores majadas Negrete, la que ha conservado siempre pura, habiendola servir con carneros de las mejores cabañas Negretes Europesa, como ser la del Sr Mass en Kenslin, Gadegast etc., habiendo comprado siempre carneros de muy alto precio como lo han podido observar los que concurren a los remates de animales de raza.

7 Esplendidos Moruecos Sajones procedentes de la cabaña del Sr. D. R. Gadegast en Thal cerca de Oschatz (Sajonia) cuna de la oveja fina y noble por excelencia, segun lo escribe al profesor Dr J Bohur, del Instituto Agronomico de Leipzig, criador practico y quien eligio el magnifico carnero para el Senor Lozano, que hace poco llamo la atencion de los inteligentes por sus bellas formas y magnifico vellon.

Para los que buscan finura, tupidez y nervio en el vellon, como tambien las bellas formas en el animal, dificilmente encontraran tipos mas perfectos que estos carneros, que se ofrecen por primera en remate en Buenos Aires.

Ademas de todo esto la competencia del Sr D Enrique Meyer en la cria y mejoramiento de la especie lanar es una garantia para los criadores, en cuanto a que llevaran animales de primer orden.

3 Moruecos Negretes de la afamada cabana de Guillermo Maas en Kentzlin sobre cuyo origen es inutil decir una palabra pues es reputada la primer cabana en su especie en el mundo.

La clasificacion es la siguiente:
